The nice Canadians will have t otake the oath of allocance to Uncle Sam or get out; then all the people of the North Americas continent will be American citizens and everybody rill live happily ever after.

There is one comforting thing about this forecast. The editor of Truth evid netly does not claim that Canada is now ripe for the inevitable absorption; therefore he must be willing to admit

that the masty Canadians are in the majority. For this conce should not be ingrateful. RADIO DEVELOPMENT

mr. I nomas A. Eduon has been say-ing some very uncomplimentary things about radio, and makes no secret of the fact that he regards it as already a back set that he regards it is arrendy a deci-number. The enthusissm with which it was hailed at first he declares, has al-ready waned, whereas the phonograph, towards the perfection of which the great inventor has done so much, still great investor has once so muca, and realfine its hold upon popular favor. There is certainly truth in the charge that many of the programs which come over the air are of a disappointing char-acter; but then the "fan" has a wide argue that the mischief lies in that very fact—that, left to their own discrimination, radio users are apt to tune in 'o refer jazz will seek it, and those who ferior product by a turn of the dial. The re the apparatus is used, the better chance for cultural improvement-The phonograph has its mission, and The phonograph has its misseon, some performs it admirably. There is room for both forms of sound reproduction and each of them serves a special need. There is no reason to suppose that radio

will supersede the phonograph, for there are things which the latter can do which are impossible for the former. The well are impossible for the former. In a weil equipped home will want both. JACK FROST

To the Kiddles in a Sunshine Furnace heated home, Jack

Frost is only a mischievous elf who paints wonderful trees and grottoes and flowers on the window panes.

The heated air generated in McClary's Sunshine Furnace is humidified and delivered warm and soft as a summer breeze to all the rooms in the home. Properly in-stalled by McClary's accredited agents the distribution of the heat is uniform.

Burns Any Kind of Fuel

Hard coal, soft coal, coke, all burn equally well in the Sunshine Furnace. The Air Blast Ring makes it a soft coal burner at will. The furnace being entirely constructed of Cast Iron, coke can be burned without any risk of cracking or burning out.

Write your nearest McClary's Branch for free booklet: "Winter comfort in Canadian Homes," that will give you much interesting in-formation about heating, fuel and the proper installation of furnacts so necessary in solving the problem of comfort in Winter,

One of the Victims Identified By Police., McNabb Rest ing Easily and Will Recover, But Will Lose His Left Foot

TRUCK DRIVER NOT ARLE TO TALK

C. P. R. "Canadian" Flyer, Travelling 55 Miles An Hour When the Crash Occurred. Truck Appared by Stalled on Crossing

When the C. P. R. Flyer travelling at a speed of 55 miles an hour struck a heavy gasoline truck owned by McColl Broa, at the Cemetery Crossing on the Trent Road at 12.12 p.m. Sat-urday, two men were killed and the driver of the truck, Mar-shall McNabb, was terribly injured. McNabb, whose life was at first despaired of, is resting easily today in the Belleville Hospital, with his left foot amputated at the ankle and the same leg fractured further up. He seems to be rallying from the shock and good hopes are held out by his physician, Dr. Branscombe, for his ultimate recovery.

The bodies of the two dead men, horribly mangled and burned beyond recognition are in charge of Tickell's under-taking establishment awaiting the conclusion of the inquest

The police have identified one of the victims as Archie Reavia, of Toronto, aged about 75 years and with apparently no settled home. The identification was made from a discharge no settled home. The identification was made from a discharge ticket from the Toronto General Hospital and was confirmed by the Toronto police. Reavie, apparently left Toronto some-time in July to walk to Kingston where he had relatives. Or July 30th he was sheltered for the night at Trenton police on his way back from Kingston when he met his tragic death. The Trenton police describe him as, 5 feet 8 inches in height

From the remains it is judged that he was a man of about - 20 years of age and presumably he joined Reavie somewhere be-tween Kingston and Belleville. Driving from the city to her home, Mrs. C. Wilmot noticed an old man accompanied by a was only going a short distance she did not stop but her des-cription of the older man tallies closely with Reavie's appearance and she describes the younger man as being tall, re ably well dressed and about 20 years of age. It is probable that the ill fated gasoline-truck coming along right afterwards picked up the two hikers who were so shortly to meet a horrible death.

The train whose normal speed at this point is about 50 mile an hour was a few minutes late and was travelling alightly

IT is no trick to make a gasoline that will start quickly. But to make such a gasoline without sacrifice of power and mileage, has long been a problem that has baffled the best brains in the oil industry.

The discovery of Ethyl Brand of Anti-Knock Compound--after 7 years' research in the General Motors Laboratories--has enabled us to solve the problem.

We produced a very special grade of quick-starting gasoline. We added this Ethyl ingredient. We thus achieved a gasoline that, while "light" enough to explode the moment the spark jumps, gives more power and longer mileage than any winter gasoline heretofore made or sold in Canada. And in addition, it makes your motor absolutely knockless. 4 cents more per gallon-but emphatically worth it.

Fill with Imperial Ethyl. In the first mile it will show its superior acceleration. On the first hill it will reveal its truly remarkable climbing performance. On the first cold morning it will prove its readiness in starting.

You will come to it some day soon--why continue to miss the driving thrills, the real motoring satisfaction, you can get by filling with Imperial Ethyl.

Visit Your Old Home Town this Autumn-noteits Improvement

PLAN a trip this Autumn back to the old home town. Look up your boyhood friends. Renew and strengthen the ties formed years ago.

Take a trip. Note the fine homes, the beautiful lawns, the well-kepf flower gardens. What an improvement in a few short years!

a few short years!

If you haven't ravelled over Ontario's highways lately, you will be surprised in a change so noticeable. The power of example is exemplified in the wonderful property improvement manifest today in Ontario's towns and Ontario's country-side, this because of Ontario's moreoved highways.

Ten years have not yet passed since the completion of the Toronto-Hamilton Highway - Ontario's first so-called permanent road.

You'll appreciate what Ontario is doing to improve its roads: You'll discover that what a few short years ago was a tiresome journey is now a trip of pleasure.

Excessive speed is dangerous and expensive.

Excessive speed is dangerous and expensive.

The traffic patrol is endeavoring to save the roads to make them safer for everyone, rigorously punishing law-breakers. In your own best interest co-operate whole-heartedly.

THE HON, GEO. S. HENRY,

Issued by the Ontario Department of High-ways to secure the co-operation of motorists in abating the abuse of the roads of the Province.

Chave you seen this wonderful new underwear

HAVE you seen the Woods LAVENDER LINE—the new underwear that is delighting so many women?

This underwear was built on an entirely new principle; each garment has been tailored to fit, not made to pull on. Details of finish have received a care that is almost unbelievable; even in the less expensive numbers shoulder straps are of the finest quality—the whole line possesses a charm and attractiveness which you must see to appreciate.

We have Woods Lavender Line in many interesting materials and the next time you are shopping come in and let us show you.

T TRAVELS 490 MILES.

London, Oct. 135.—How far will a rat travel to obtain food? An English experiment has shown that it will sometimes 20 fool miles. Scerce of rats now being caught tached to their legs. Within a week some of them have been caught fifty miles away from where they were re-leased. One rat crossed half of England, but it took us months to do it: It was the longest migration or traced. Rat catchers say that there are more rats in London more than probably there have been in this century. Sixty million rats were last year destroyed by one rat-catching firm alone,

MAN'S LAST SANCTUARY

London, Oct. 13 .- England is soon to lose one of her most famous old inns, the Swan. Hotel a Birmingham, where coaches used to start for London in the sixteenth century, coaches used to start for London in the sixteenth century, and in which no woman is allowed, except for exactly one half hour on one day 'yearly. The City of Birmiser, ham has just bought the plot of ground where the inn stands, and it will be demollabed, since it obstructs traffic. The Swan originally stood amid pen fields. The inn still has a part of its old-time; coaching 'yard, whence stage conches used to ply to London, 'in Warwick and

Coats of Needlepoint and Other Deep-pile

> Fabrics are First Favorites

Deservedly popular this year the velvety fabrics that drape so wonderfully. They make nearly all the finer quality coats, and combine beautifully with the luxprious for that trims everything.

And their lovely appearance is backed up by excellent wearing qualities.

We have just received several new coats of needlepoint. them are made with the graceful dolman sleeve, and gathered fullness at the back, others are straight, with odd shaped collars and huge pointed cuffs of grey or black fox, soft blond moufflon, or dyed squirrel. Black Astrachan fur is also used on several smart coats, of Chanel red brilliant blue nevy brown and black.

Advertising attracts attention but it is quality that makes sales

More Magic Baking Powder is sold in Canada than of all other brands combined, not because it is the most widely advertised, but because most housewives have been con-vinced by experience that it is always absolutely reliable.

This lefteritells of an interesting experience:

Toronto, April 7, 1926.

I cannot help just sending you a little note of my experience last night.

A cannot neep just senoing you a little note of my experience has light.

If the evening I started to bake a cake, and when I came to use the baking powder I noticed it was not "Magic" (as I have always been using at any time when I bake). However, I had the cake mixed and put in this — baking powder. (It is not nice to say the kind, is it?) I put the cake in the oven, and when I looked showt minutes later, my cake was about ¼ inch high. I was very disappointed. First, I blamed the shortening, then the flour—of course, never myself! Then I suddenly semembered that I did not have Magic Baking Provide I put had been provided in the state of the course of the state of the sta

The Tired Business Man Tired Brain—Tired Nerves—Tired Body

Is it any wonder that digestive organs fail and the heart's action weakens under such strain?

ODERN business is carried on at tremendous expense to the nervous systems of men. So great are the worries and anxieties of business and professional life that the end of the day finds the brain, the nerves, the body, tired and limp.

The last ounce of nervous energy seems to have been expended. Is it any wonder that hearth stop beating when the nerve force which controls their action is so completely enhanced?

If you could only rest and sleep there would be some chance of replenishing by night the nerve force which is exhausted by

But with the nerves on edge you are restless and irritable. You cannot sit still or, selax. You must be ever on the go. You must have excitement and stimulation until finally worn out, a nervous breakdown or failure of the heart's action brings calamity.

There is a way out of this vicious circle of nervous exhaustion. It is by the use of Dr. Chase's Nerve Food.

This is the most rational treatment imaginable because it feeds the nerves back to health and vigor. Not directly of course, but through the medium of the blood, which is the bource of all bodily nourishment.

By using Dr. Chase's Nerve Food you will soon find yourself sleeping and resting better, digestion will improve and you will forget the tired feelings in your enthusiasm for new health and happiness.

It will take a little time to get back all your old pep and vigor, but while using this restorative treatment you can be certain that your nervous system is being thoroughly built up and that the beneficial results will be lasting.

As the supply of nerve force in the body is increased your vital organs will resume their natural functions. You will feel the confidence that goes with good health. Your efficiency will improve and you will be able to get the most out of life.

o You who haven't tried it-

WE are so confident that Imperial Ethyl Gasoline will bring a noticeable operating improvement in any car, that we ask you to make three simple tests of this new and different "cold weather" gasoline.

- Starting Test--Make your starting test difficult-preferably in the morning. Note the quicker start
 --even after a night in a cold garage.
- Power Test on Hills -- Tackle the steepest hill you know. Go all the way up in high gear. Try to make your engine knock!
- 3. Power Test in Traffic -- Throttle down to a "crawl."
 Then feed the gas with a rush. Note the "pick-up" you get.

Compare the results of the above tests with the results you've had with any other gasoline. And keep in mind that the exceptional quick-starting ability and knockless power properties of Imperial Ethyl have been obtained without any sacrifice of mileage. This you can also prove by your own mileage check.

There's only one way to find out how good this new gasoline is. Try a tank-full of Imperial Ethyl. It costs 4 cents a gallon more, but you'll say it's worth it.

You can have Lovely Under things and still be Warm

WOODS Lavender silk is lovely, but if you prefer warm fabrics you can get exquisite undersuits in fine, soft wools or specially selected lustre cottons.

The WOODS LAVENDER LINE Styles for warmth are made to fit the modern modes tailored with slim simplicity—finished with exquisite daintiness

The combinations are specially, designed for the vogue of the natural figure—tightly knit-ted, soft vests that fit with thin perfection— knickers in cream or colors, cut specially, for the long corsets and short frocks.

Find Woods Lavender Line today. Look only in the better women's shops. You will know it by the little sachet of Lavender attached to each garment.

Eyes Can Cause Eve Strain

Sojean eyes that are not worked at all except for distant seeing. If a person is a year and a year and a year are normal they can be one worked by too constant use. If worked is they are overworked in the year a trained by trying to focus the light that enters them, so eyes are starled to one or the subjected to one or the subjected to one or the strain. But I can remove them both.

The Marshall Way-The Healthy Way

Unhealthy Ways to Sleep

Nature never intended lyour nervous system to bear such tremendous strains as those of our pre-sent day high-speed, high-tension living. Medical suthorities point out that the indispensable safe-guard of your nervous strength is truly restful sleep.

The mere fact that you sleep every night is far from enough. You may find sleep on a hard, unviolding matters, or even on what apparently seems a soft matters, from force of habit, but you are getting only partial rest because your shody is only partially supported on hips, abouters and the seems of the

Thousands of people have found in the Marshall Mattrea a new kind of sleep—the profound slumber only possible when every square inch of the body is firmly suppliered in its natural position. It effeats the refreshing, invigenting also polyperfor relatation, the healthful sleep that cleanese your system of the poisons of fatigue, that makes you a new person for another day!

If you do not always rest or sleep well it is a sign you should improve your sleeping habits. Give a serious thought to this vital matter of healthful sleep. It affects your sleeping comfort and well-being for the rest of your life. Is it not worth a visit to your furtiliture dealer who sells Marshall Mattresses?

DEFORESTE CROSLEY

Tested - -

Accepted IN all the history of radio, to sees have received such widespread approval as the new DeForest & Crosley models. Already the demand confirms the prediction that they will replace thousands of sees now in use.

Confronted by high prices, many people who desired the best that radio offered, heviated to buy. Now in D-C model, they find the features and qualities they desire, formerly exclusive to very high priced sets, available at a small investment.

The extreme simplicity of D-C drum control, the absence of local interference, made possable by the all-meal shielded chassis; extra reserve power; life-life fidelity of tone; the distinction of the Grand Master cabinets by RicLagam—all the attributes of radio as its best, designed and engineered to meet Canadian conditions.

Before Buying Radio

"HABIT, kept me from a Real Shave."

THAT'S what many men confess, once they've learned the advantages of the stropping feature of the Valet AutoStrop

"I formerly used an ordinary safety razor," many say "but only the first few shaves with a new blade were good. After that it was a choice between a poor shave or a new blade.

Now I give my Valet AutoStrop Razor blade a few strokes on the strop without removing it from the holder, and thus enjoy many perfect shaves from the same blade."

Changing Habits

If you're in a habir rut, why not break loose and find out how superior shaving is so easily attainable? If you'll just switch to a Valet AutoStrop Razor you will never return to old ways, for it, is the only razor that automatically abapens its own blades without removing them.

Valet auto Strop

Leather strop for sharpening blades is supplied as part of every set.

Saves Time and Money

Speediron operates on contact heat. This eliminates waste. Intense, concentrated heat goes right into the quoting utensil—not out at he sides, as with span elements—which means, better, faster cooking and lower hydrobids.

McClay's Electric Ranges are the only ranges equipped with the Speed-iron Element. When you see the Speediten you won't be satisfied until you have a McClary's Electric Range in your kitchen. See your electric range dealer about it today.

NOW DRIVE THE CAR!

Only those who have driven a Dodge Brothers Special Sedan—or any Dodge Brothers car BUILT RECENTLYcan fully appreciate all that Dodge Brothers have accomplished during the past few months.

So swiftly has improvement followed improvement, that today the car, to all intents and purposes, is a different and incomparably finer vehicle.

The amouncement of emert new body lines and attractive color combinations first attracted general favor. But since then, improvements even more fundamental have been accomplished . mechanically.

Drive the car NOW! Observe its impressive new silence, smoothness and elasticity of performance, and you will then begin to realize just how vital and varied these and other later improvements actually are.

Unfortunately there are radio receiving sets which car a close resemblance to the old mare. They can then go through their paces. But at any time they re apt to need first-aid badly.

Look at it carefully, inside and out. See whether it obts to you like a clean, workmanlike job.

Hear I: In operation. Judge it for tone and volume and selectivity as well as for distance.

Then ask your dealer about the manufacturer. How ng has he been in business? What is his reputation? o his sets need a lot of service after they are sold?

On a judgment of that sort, Atwater Kent is willing to atand or fall. We know that every Atwate Sept Radio Receiving Set is made to do certain things consistently and well. We know that it is accurate to a hairs brandth.

And we know that Atwater Kent owners are fied.

the result is not so satisfying. A glance at these pretty frocks will tell you that they do possess that invaluable quality.

One very attractive dress of crepe satin in a dark green shade that is unusually becoming has graceful bat sleeyes; neck and cuffs are bound with beige crops de chine. The dult and lustrous side of the satin are used alternately in this dress and tiny buttons part way down the front make it complete.

Navy, after black, of course, is a real-favorite again in afternoon ses. Some of the prottiest models have a tucked vestee or ties of crepe de chine in some pale tint. Pleats are used extensively, and smocking makes an effective variation on many models.

How do you eat wheat!

You must eat some wheat each day __ it is your "staff of life"___ but how do you eat it? If should be the whole wheat, not just the starchy center of the wheat berry which we call white flour." The mineral salts and vitamins so necessary to health and normal growth are in six outer coats of the wheat berry. They are all in SHREDDED WHEAT and in a digestible form. Each shred is baked crisp and brown. No one has ever been able to improve or even approach our shredding process for making the whole wheat grain palatable and digestible. Eat it with milk or as a hot porridge made by cooking the biscuits in water or milk. Great for youngsters when toasted and served with butter.

MAGIC **BAKING POWDER**

This letter expresses an opinion that is almost universalI thought I would drop you a line in regard to baking powder I have used different hundo and I thought it my duty to let you know that Mague is the best on the market, m my opinion. I am a working man's wife, over be years of age ... Mrs & J. Willoughby . Sauet Ste Marie

That's why more "MAGIC" is sold in Canada than of all other brands combined

All ingredients of Magic Baking Powder are plainly stated on the label. No alum. No impurities of any kind. Just the perfect leavening ingredients perfectly blended, assuring a uniformity of quality that means absolute re-liability—always. Most good grocers sell Magic Baking Powder, and recommend it.

Protects your Health provides real warmth and comfort

STANFIELD'S has been made in Canada for nearly fifty years by men who know the kind of underwear best suited to provide snug warmth and comfort throughout the coldest weather.

Be comfortable this winter. Wear underwear that is designed on living models to fit as perfectly as a well-tailored suit of clothes, without binding or bulging.

You can get Stanfield's in all the most-called-for weights, styles and sizes in wool, silkowool and cotton and wool. Stan-field's garments are easily laun-dered, and given ordinary care in washing according to our directions, will not shrink!

Stanfield's prices (from \$1 to \$10) bring the luxury of perfect underwear comfort within reach of all.

You Are Not Sick But Always Tired!

The Nerves are Tired and Exhausted and must be nourished back to health and vigor.

Here is the Proof

Sleep fails and with loss of sleep comes further debility, irritable tem-per and the tendency to fear and worry. Fear of a crowd, fear to be alone, or the more common fear of the future — these make life

There is a way to get away from this condition and it is by using Dr. Chase's Nerve Food to feed the starved and depleted nerve cells.

This is the only rational way to restore the exhausted nerves. Narcotics may stop pain by deadening the nerves, but they do so at enormous expense to the nervous system.

You will not be using Dr. Chase's Nerve Food long before you discover its upbuilding effect on the system. Good, restful sleep, improved digestion and a brighter outlook on life will soon convince you that this treatment is bringing back your old

Beautiful Designs

CORRECT, THOUGH MODIFIED, COPIES OF ORIENTAL

You won't believe in the sheer beauty of these rug designs until you have seen them, admired the dainty florals, clever tree patterns, impressive medalions, for yourself. Such soft-toned colors in the backgrounds, and the other shades blend in so perfectly.
